

Presidents Message:

As your new President of the Pinawa Chamber, it is my goal to continue the long standing tradition of support to our local businesses which have contributed to the growth and prosperity of Pinawa as a successful regional business center. To specifically address the needs of our ever growing and diverse community and economy whether it be small home based businesses, industrial shops, professional service providers or the large retailers, corporations, and high tech companies. Whatever the need, we as a chamber will endeavor to provide and create a business environment which will result in the ongoing growth of our business sectors as leaders on both local and global levels, ultimately bringing success to our community in all areas of life.

In providing our support while also promoting a vibrant business climate as well as collaborative business and community partnerships, the Pinawa Chamber will continue to offer its wide range of services, programs, and committees – mixers, networking breakfasts and business seminars, our newsletters, e-mail updates and direct business assistance. I also invite you and encourage you to learn more about our members, services and programs at www.pinawachamber.com

Regards,

Patrick Headrick
President
Pinawa Chamber Of Commerce
